 twitter.com/simrangupta234

I'm a fast learner and focused towards my goal. I contribute to Open Source and also learning web development. I'm a strong believer in the power of tech communities. These are the best place to connect, collaborate, learn and grow in public under the guidance of experts.

EDUCATION

B.Tech in Computer Science

2020-2024

GL Bajaj Group Of Institutions, mathura

SKILLS

Languages	Java, C, Python, HTML, CSS, JavaScript, Go, YAML
Frameworks	React js, BootStrap
DeveloperTools	Microsoft Visual Studio, GitHub, Git, Android Studio, Docker, Windows, IntelliJ, Eclipse
IT Constructs	Data Structure and Algorithms
Soft Skills	Time Management, Teamwork, Communication, Problem Solving, Leadership

WORK EXPERIENCE

Kubernetes 1.23 CI Signal release team Shadow

25/08/2021 - 10/12/2021

The Shadow system is an apprenticeship model, like those used by union tradespeople. The idea is that Shadows learn by doing, while in the process taking load off the leads and improving the release. After unplanned developments, they may even end up taking over for their lead.

PROJECTS

Tic- tac- toe

- A simple and basic android game application
- Developed with the help of android studio
- language- Java
