B.Tech in Computer Science   2020-2024
GL Bajaj Group Of Institutions, mathura

SKILLS

Languages	Java, C, Python, HTML, CSS, JavaScript, Go, YAML
Lib/Frameworks	React js, BootStrap, Node, jQuery
DeveloperTools	Microsoft Visual Studio, GitHub, Git, Android Studio, Docker, Windows, IntelliJ, Eclipse
IT Constructs	Data Structure and Algorithms, Computer networking
Soft Skills	Time Management, Teamwork, Communication, Problem Solving, Leadership

WORK EXPERIENCE

Kubernetes 1.23 CI Signal release team Shadow   25/08/2021 - 10/12/2021

The Shadow system is an apprenticeship model, like those used by union tradespeople. The idea is that Shadows learn by doing, while in the process taking load off the leads and improving the release. After unplanned developments, they may even end up taking over for their lead.

PROJECTS

Train Schedule Web app

- Train Schedule Web application using own sample API for train data
- Developed using react, express, JavaScript
